

# SAVE THE NUMBER

SOS

## EMERGENCY CALL

Please, proceed as follows:

**1. Where did it happen?**

Please give us the precise location (place, street, hiking trail, e.g. peculiar buildings). This saves time and helps the rescue team, the firebrigade or the police to find you as soon as possible.

Please always let us have your speedometer reading.

**ATTENTION!!! PLEASE RESET YOUR SPEEDOMETER AT STARTING LINE**

**2. What happened?**

Short description of the accident. This helps us to find out which measures will have to be taken.

**3. How many people have been injured?**

Number of injured people (in order to avoid that one accident is reported several to mes, please, always tell us the racing number of the injured person).

**4. What kind of injuries?**

Especially point out life-threatening injuries

**5. Wait for further inquiries!**

As a rule the conversation is always finished by the *event-rescue-team*. Maybe additional information is required such as further details or your telephone number to be able to call you back.

Please pay attention and tolerate the usage of motorcycles by the event-rescue team. The motorcyclists of the event-rescue- team have to drive along with the participants in order to be able to provide fast help in case of emergency. If you passed an accident, please drive with walking speed. In case there should be a rescue helicopter landing on the race track, you must not by any means pass through under the rotor blades.

## General Rescue Number

# +49 - 178 - 78 19222
